Work Experience

Horizon Fellow in Physics

Johns Hopkins University, USA

RESEARCH FIELD: COSMOLOGY AND PARTICLE PHYSICS – ADVISOR: PROF. MARC KAMIONKOWSKI

2022 - present

In my current postdoc, I am focussing on building a robust and fast Bayesian analysis pipeline to probe the fundamental properties of the Universe using high-redshift galaxy data sets. Alongside this, I am studying the potential of atomic quantum systems to detect neutrino fluxes ranging from reactor neutrinos, to geoneutrinos, solar neutrinos, and the relic neutrino background.

Education

PhD in Theoretical Physics

King's College London, UK

RESEARCH FIELD: COSMOLOGY AND PARTICLE PHYSICS – ADVISOR: DR. DIEGO BLAS

2018 - 2022

During my PhD, I have covered a variety of directions: I have constrained particle physics and cosmological models with early Universe probes, measured the clustering and growth of matter with high-redshift galaxies, and probed new physics using systems in the local Universe and terrestrial experiments. I am an author of 13 articles and have presented my work at international conferences, workshops, journal clubs and seminar series. During my PhD, I have also developed two cosmological codes, organised a workshop and a journal club, worked as a teaching assistant, and supervised MSc students.

Master of Science in Theoretical Physics

Leiden University, Netherlands

THESIS: “HEAVY NEUTRAL LEPTONS DURING THE BIG BANG NUCLEOSYNTHESIS EPOCH”

2016 - 2018

GPA: 9.0/10 (Cum Laude)

Double Bachelor of Science in Physics and Astronomy

Leiden University, Netherlands

THESIS: “CONSTRAINING COSMOLOGICAL PARAMETERS USING THE CLASS CODE”

2013 - 2016

GPA: 9.0/10 (Cum Laude) in both degrees

Organisational Experience

Latest advances in the physics of BBN and neutrino decoupling

King's College London/TUM

CO-ORGANISER

April 2021

Co-organised a 2-day online workshop on our current understanding of the physics of Big Bang Nucleosynthesis and neutrino decoupling. Speakers from both theoretical and experimental fields were invited to give a talk. See also [this](#) Indico link.

PhD seminar series

King's College London

CO-ORGANISER

Feb 2021 - May 2021

Co-organised a local PhD seminar series, where PhD students could talk about their work and train their presentation skills.

Computing Skills

Expert: Python, Mathematica, \LaTeX

Basic: C++

Scientific software: CLASS, MontePython, PRIMAT, Resonance-DM, Sterile-DM, CalcHEP

Developer: pyBBN, GALLUMI

Teaching and Working Experience

Supervision of MSc students

SUPERVISOR

King's College London

Oct 2020 - Apr 2021

Co-supervised two MSc students on a project entailing the impact of warm dark matter on structure formation.

Teaching undergraduate courses

TEACHING ASSISTANT

King's College London

2018 - 2020

1st year labs, 3rd year particle physics.

Mentoring A-level student

SUPERVISOR

King's College London

May 2019 - Sep 2019

Mentored an A-level student in producing an academic piece of work as part of the Realising Opportunities programme.

Development and guidance of research topic for secondary school students

Leiden University

SUPERVISOR

Dec 2016

Supervised pupils on a project that involved calculation of the mass of the black hole in the centre of the Milky Way using orbits of stars nearby Sgr A*.

Imaging and analysis of astrophysical data

Leiden University

PROJECT LEAD

May 2015

Project involved imaging and photometric analysis of the Cosmic Horseshoe gravitational lensing system using the Isaac Newton Telescope at the Roque de los Muchachos Observatory in La Palma with the goal of estimating the dark matter abundance within the lens.

Awards and Certificates

Hendrik Casimir Prize

Dec 2017

Awarded by the Casimir Research School for best performance during the Master's program in physics.

Young Talent Encouragement Award

Nov 2014

Awarded by the Royal Holland Society of Sciences and Humanities for best performance during the first year of the Bachelor's program in physics.

Languages

Fluent: English, Dutch

Intermediate: Arabic

Basic: Russian

Presentations

Talks

1. Johns Hopkins lunch seminar, 05/12/2022
– *What will it take to detect the Cosmic Neutrino Background?*
2. Harvard Physics seminar, 04/11/2022
– *The GALLUMI ecosystem: A unified framework for cosmology with high-redshift galaxies*
3. Harvard-Smithsonian Center for Astrophysics, 03/11/2022
– *The GALLUMI ecosystem: A unified framework for cosmology with high-redshift galaxies*
4. Cosmological Probes of New Physics Univeristy of Maryland, 16/09/2022
– *New Roads to the Small-Scale Universe: Measurements of the Clustering of Matter with the High-Redshift UV Galaxy Luminosity Function*

5. Circle University meeting, 08/06/2022
– *What will it take to detect the Cosmic Neutrino Background?*
6. Seminar at IFAE and UAB, 17/05/2022
– *What will it take to detect the Cosmic Neutrino Background?*
7. Cosmolunch at Princeton IAS, 07/03/2022
– *New Roads to the Small-Scale Universe: Measurements of the Clustering of Matter with the High-Redshift UV Galaxy Luminosity Function*
8. Cosmo/Astro coffee at Princeton University/IAS, 07/03/2022
– *Cosmology with UV Galaxy Luminosity Functions*
9. Sazerac - learning the high-redshift Universe, 02/02/2022
– *GALLUMI: A Galaxy Luminosity Function Pipeline for Cosmology and Astrophysics*
10. Seminar at ICCUB, Barcelona, 18/11/2021
– *New Roads to the Small-Scale Universe: Measurements of the Clustering of Matter with the High-Redshift UV Galaxy Luminosity Function*
11. Seminar at Università degli Studi di Padova, 11/11/2021
– *New Roads to the Small-Scale Universe: Measurements of the Clustering of Matter with the High-Redshift UV Galaxy Luminosity Function*
12. Seminar at SNS, Pisa, 10/11/2021
– *New Roads to the Small-Scale Universe: Measurements of the Clustering of Matter with the High-Redshift UV Galaxy Luminosity Function*
13. BSM Pandemic, 9/11/2021
– *New Roads to the Small-Scale Universe: Measurements of the Clustering of Matter with the High-Redshift UV Galaxy Luminosity Function*
14. Seminar at IFPU in Trieste, 27/10/2021
– *Astrophysical Probes of Dark Matter*
15. Seminar at Perimeter Institute, 19/10/2021
– *Cosmological and Astrophysical Probes of Sterile Neutrinos*
16. 2021 Meeting of the Division of Particles and Fields of the American Physical Society (DPF21), Florida State University, 13/07/2021
– *When FIMPs Decay into Neutrinos: The N_{eff} Story*
17. PPC 2021: XIV International Workshop on Interconnections between Particle Physics and Cosmology, University of Oklahoma, 15/05/2021
– *Cosmology with UV Luminosity Functions*
18. First EuCAPT Annual Symposium, 06/05/2021
– *Cosmology with UV Luminosity Functions*
19. MPA Cosmology Seminar, MPA Garching, 30/03/2021
– *Probing Small-Scale Non-Gaussianity with UV Luminosity Functions*
20. High-z Galaxy Evolution Meeting, Harvard-CfA, 08/02/2021
– *Cosmology with UV Luminosity Functions*
21. KCL PhD Seminar Series, 08/02/2021
– *How do FIMPs that can decay into neutrinos affect N_{eff} ?*
22. London Cosmology Discussion Meeting, 21/01/2021
– *What BBN can tell us about thermal dark sectors*
23. CTA Dark Matter Journal Club, 12/11/2020
– *New Constraints on the Mass of Fermionic Dark Matter from Dwarf Spheroidal Galaxies*
24. UK Cosmology, University of Sheffield, 22/09/2020
– *Probing Small-Scale Non-Gaussianity with UV Galaxy Luminosity Functions*

Posters

1. COSMO 2021, University of Illinois, 02-06/08/2021
– *When FIMPs Decay into Neutrinos: The N_{eff} Story*
2. Weak Interactions and Neutrinos 2021, University of Minnesota. 07-12/06/2021
– *When FIMPs Decay into Neutrinos: The N_{eff} Story*
3. RAS Early Career Poster Exhibition 2020, 14-28/09/2020
– *First Constraints on Small-Scale Non-Gaussianity from UV Galaxy Luminosity Functions*
